

 **OneScope<sup>®</sup> Pro**  
*Video Laryngoscope*

When It's Time to Intubate,  
Every Second Counts...

...Breathe Easier With  
OneScope Pro

One System  
One Pass  
Just One & Done!

 **One-AI<sup>™</sup> Healthcare**  
*Visual Anatomical Intelligence*

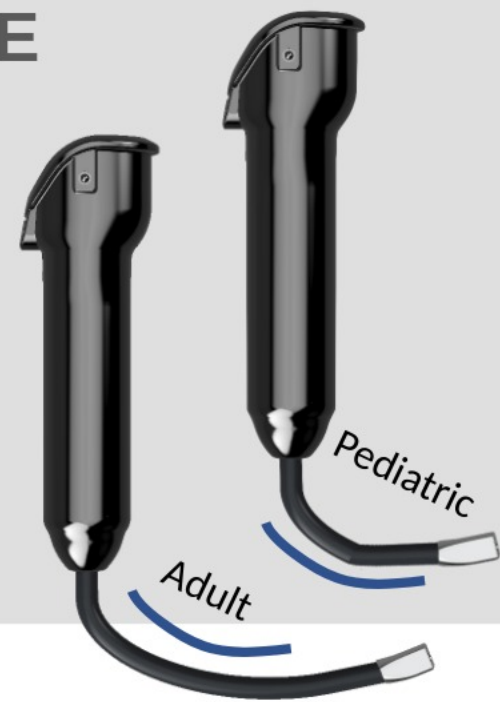

One System

A new simple and powerful  
“All-in-One” Video Laryngoscope  
designed for EMS

### Adult and Child Modes in ONE Product

No need to change handles or buy multiple products for Adult and Child - Simply slide and click to change from Adult to Child mode

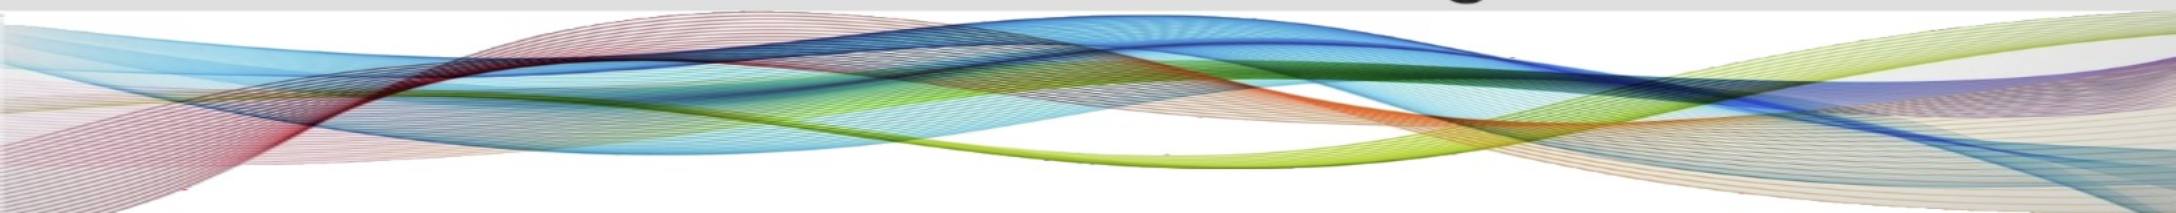

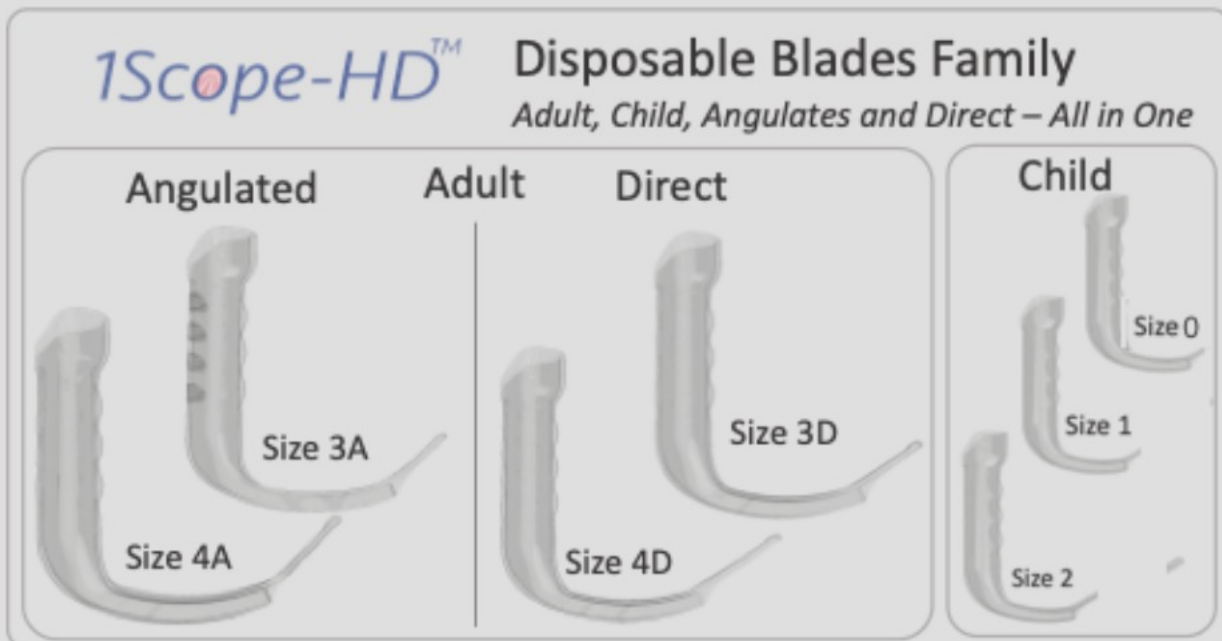

### Crystal-Clear Image, Even in Bright Sunshine

Need to intubate outdoors amongst the elements? No need to wrap a blanket around to create darkness for imaging – OneScope shows the image clearly, even in the bright sun, with its IPS hi-res display

### Disposable Single Use Blades and Detachable Handle to Clean, Disinfect

One Pass

With 360 degrees rotation you can approach your patient from any angle and effortlessly adjust the display allowing for easy direct access

### “Direct” Blade Matching Mac 3 and Mac 4 Angles

Our innovative “Direct” video laryngoscope blades can help you maintain your current technique and minimize learning curve related to video laryngoscopy

### One Handed Operation

Left thumb can easily reach power button located on bottom left of display

### Hi-Res Detachable Display Features

Standard USB-C charging port

USB-C to HDMI output port

One touch power-on

3.5” IPS display with 2 million-pixel resolution

Touchscreen!

16GB storage (Enough for 4,000 pictures or 80 minutes of HD video)

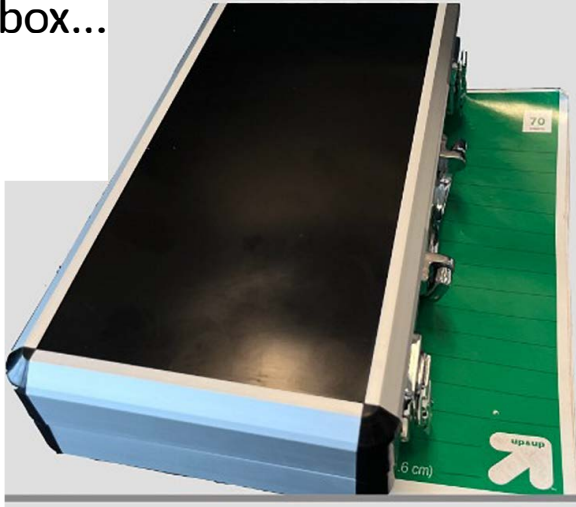

Auto Recording, video, photo, and sound recording capability

# OneScope<sup>®</sup> Pro

## Video Laryngoscope

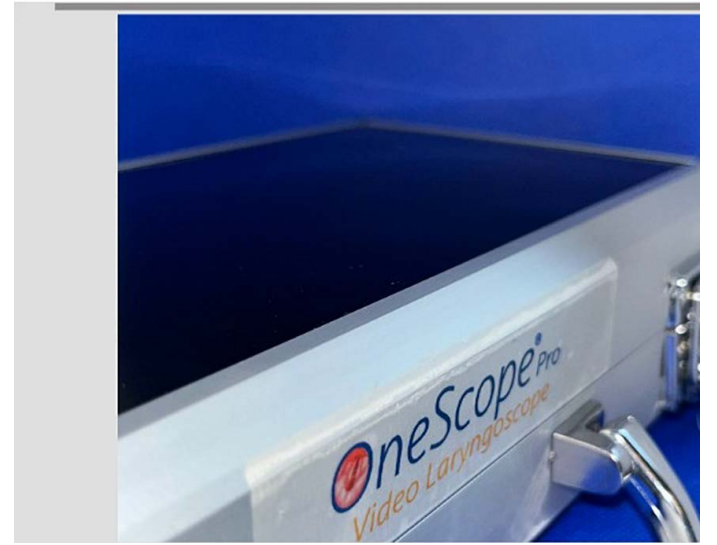

Custom made rugged storage box...

...that is smaller than a standard notebook...

...and easily fits and stacks into ambulance supply carts!

With OneScope Pro...

“ Love the large screen, crystal clear HD image quality, light-weight design and best of all, NO batteries to replace or chargers to buy! Charging with micro-USB is not only brilliant but also economic for our budget. ”

“ OneScope truly delivers high clinical value and very high economic value to our facility. Love the ergonomic design, blade choices and the "all in one" solution for adult, pediatric, cart and ability to project on any surface without dongles or adapters. ”

...Everyone Breathes Easier
