ARE YOU ADAPTING TO CHANGING DEMANDS OF THE JOB?

Over the past 10 years, fall calls have increased by **298%**

Over the past 20 years, the US citizen obesity rate increased by **200%**

1 in 2 (**47%**) EMS providers will sustain an on-the-job back injury

WHY CHOOSE BINDER LIFT?

BINDER LIFT®

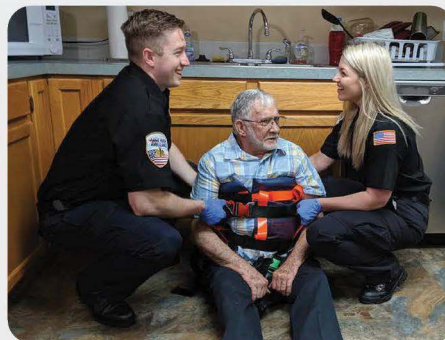

EASIER

FOR YOU

Harness the power of your legs and team lift with the Binder Lift's 32 handles

BETTER

FOR THEM

Cushioned top edge and torso wrap design provides patient comfort and stability

SAFER

FOR EVERYONE

The Binder Lift is scientifically proven to reduce provider musculoskeletal strain

"We use the Binder Lift in some pretty tight situations, even when someone's twisted up in the shower. Instead of blowing out our backs with traditional lifting, we get that extra leverage."

- Capt. Hirosky, Pittsburgh Bureau of Fire
