

The NIMS/ICS Campus Command Response & Training Kit TM

by DMS

DMS-05304

The **Campus Command Kit**TM was designed as an all risk tool to help schools prepare for ultraviolet incidents. The kit provides schools and private industry with the ability to self-help in the event of a major disaster. Often when disaster strikes an immediate response by emergency services is not possible. The Campus Command kit can be a substantial aid in helping civilian responders organize until help arrives. The kit supports the Standard Emergency Management System which mirrors the Incident Command System. This provides seamless integration of school, fire and police resources as they arrive. The kit also promotes interaction between school and fire department personnel. This can be accomplished through annual

Durable tempered steel flag stands are made to last.

preplans where fire, police and school staff can predetermine command post, medical group, student care, and command staff locations.
